

Magneti Marelli RFD Flash Disc Data Logger

Brand: Magneti Marelli

Product Code: RFD

Availability: 7 Days

Weight: 1.00kg

Dimensions: 30.00cm x 20.00cm x 5.00cm

Price: \$3,630.00

Short Description

RFD is an extension box containing a compact flash allowing for fast extraction of data.

Description

The RFD can be used with an existing data logging and engine control package as a way of extending the logging capacity (up to 4GB!!) as well as making for fast download times by simply replacing the data card during a pitstop. Perfect for long distance racing that doesn't allow for real time telemetry.

The RFD is also compliant with the FIA's draft regulations for Formula 4 (F4) calling for a removable disc data logger with the ability to limit user access to the configuration.

Main Features

- Up to 4 Gbyte Removable flash card memory
- Up to 128 kbyte/s logging rate (via ARCNET)
- Up to 40 kbyte/s logging rate (via CAN)
- 1 CAN communication buses
- 1 Ethernet line
- 1 ARCNet line

- 1 RS 232
-

Benefits

- It's possible take all data without the needed to be connected to the logger
- All data are immediately available
- Robust design, easy to install
-

Typical Applications

- Professional circuit and rally applications
- One make race series
- Formula series (especially Formula 4)
