

Variohm ELPM50 Compact Linear Position Sensor

Brand: Variohm
Product Code: ELPM50
Availability: In Stock
Weight: 0.10kg
Dimensions: 15.00cm x 3.00cm x 3.00cm

Price: \$795.00

Short Description

Compact Linear Position Transducers ELP which have been specially designed to perform in the most arduous and extreme conditions. Perfect for rear shock measurement on Superbikes.

Description

- Extremely robust and compact specifically for Motorsports
- Aluminium housing sealed to IP67
- Elastomer damped wipers for shock and vibration durability
- Self-aligning pivot bearing mountings with optional snap-on version for quick installation/removal
- Extended 'S' sealing option for enhanced reliability and longer life
- Wide choice of options

Features

- Standard Mountings
- Excellent Linearity
- Raychem Cable
- Long Life
- Outstanding Repeatability
- Wide Temperature Range
- Sealed to IP67
- Elastomer Damped Wipers

Technical Details

- Mechanical Life > 25 million
- Operational Speed 10 m/s Max
- Environmental Sealing IP65
- Temperature Range -30°C to $+100^{\circ}\text{C}$
- Independent Linearity $\pm 0.5\%$
- Recommended Wiper Current: $< 10\text{mA}$
- Cable Type 24AWG M22759/32 wire, with FDR25 sleeve
- Cable Length 500mm (SCREENED)
- Retracted mounting distance 120mm
- Electrical stroke 50mm
- Track Type Conductive Plastic
