

Deutsch Autosport Power Connector ASHD6141SNC35

Brand: Souriau

Product Code: ASHD6141SNC35

Availability: 7 Days

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$0.00

Short Description

These Heavy Duty (HD) power connectors are designed for high-power racecar needs like battery, alternator, Kinetic Energy Recovery System (KERS), and starter-motor applications. They feature a compact design, are environmentally-sealed and extremely resistant to vibration. With operating temperatures up to 150°C and the ability to accommodate common sizes of cable, ASHD connectors give engine applications the winning edge.

Used mainly for the main power feed on HP8440 motorsport PDM units.

Description

- Autosport design
- Positive locking coupling mechanism for excellent vibration resistance
- Environmentally sealed
- Weight savings
- Lower weight alternative to 4-way connectors
- Safe handling
- Size 20 signal contacts designed for a safety loop application
- Early Break/Late Mate on signal contacts for safety

- Compatible
- Uses existing ASHD shell for easy integration/replacement
- Uses existing ASHD pin and socket contacts for power and signal
- Accommodates cable from 16 mm² to 35 mm² in diameter
