Price: \$8,725.00

Short Description

The ideal choice for atmo circuit and race LS3 engines. This is the smaller bore 52mm version which is ideal for street use and comes with the ETA2 drive by wire option.

Description

This ITB kit boosts mid range and top end torque and power while providing awesome throttle response. The tapered throttle bodies help boost mid range torque while providing plenty of maximum airflow for great top end performance.

Chevrolet LS3 ITB throttle body kit from Jenvey Dynamics includes eight SFD52/0/0 throttle bodies with a solid linkage, two EFI inlet manifolds, two fuel rails and eight 20mm long airhorns.

Jenvey throttle bodies and all Jenvey throttle body accessories are engineered for Motorsport, offering excellent performance, reliability, lightness and value.

This kit is ideal for road, track or rally use.

Kit contents

Jenvey Manifold (CT01)

Eight SFD58 race series tapered throttle bodies
